

CORPORATE CAPABILITIES

OUR PURPOSE

To provide **WORLD CLASS** Integrated Supply and Tool Management Solutions, **SUPPORTING** metalworking and machining customers, **LEVERAGING** over 60 years of cutting tool reconditioning **EXPERTISE** and providing **EXCEPTIONAL** solutions and cost savings.

HISTORY /CAPABILITIES

Founded in 1958, **US Tool** is an innovative supplier of industrial products and services that include:

1. Integrated Supply Chain Management
2. Production Cutting Tool Reconditioning
3. Automated Dispensing Systems
4. Value Added Special Products and Services

LOCATIONS

US Tool is based in Farmington, MO where we operate a Corporate Office and Manufacturing Center of over 250,000 square feet. **US Tool** employs over 850 professionals across the U.S. as well as in Canada and Mexico. **US Tool** is a privately held (family owned) company.

In addition to our headquarters in Missouri, **US Tool** currently maintains Operations Centers in the following locations:

- Cincinnati OH
- Columbus, GA
- Los Angeles, CA
- Manchester, NH
- Mobile, AL
- Montreal, Quebec, Canada
- Newport News, VA
- Palmdale, CA
- Savannah, GA
- Wichita, KS

INTEGRATED SUPPLY

US Tool has been in the integrated supply/tooling management business since 1998 and we are the largest “pure” Integrated Supplier focusing on the aerospace and industrial metalworking markets. **US Tool** is currently the Integrated Supplier at nearly 100 customer locations of major aerospace, defense and industrial companies in North America.

US Tool’s Integrated Supply programs specialize in the planning, procurement, warehousing, management and point of use delivery of our customer’s cutting tools, abrasives, safety/PPE, hand/power tools, machining supplies, production consumables and related MRO products.

These programs typically include onsite staffing and management of tool cribs, automated vending, cutting tool reconditioning, kitting and other value added services. **US Tool** also provides technical product support and detailed program performance reporting. **US Tool**’s Integrated Supply programs provide a single source solution for our customers to manage their indirect material requirements.

US Tool is a “pure” Integrated Supplier rather than a traditional Industrial Distributor. As a result, we are often more competitive and have more flexibility in our business models as we are focused, experienced and successful in the specialized Integrated Supply market. **US Tool**’s business models are also more transparent than most of our competitors as we separate our product and service pricing. **US Tool** represents the major manufacturers in the industrial marketplace, providing expansive product offerings to support our customer’s cost savings and continuous improvement expectations.

US Tool’s Manufacturing Center in Farmington, MO is certified to the latest ISO 9001 standard revision.

PRODUCTION CUTTING TOOL RECONDITIONING

US Tool is the largest cutting tool reconditioner in North America. We are a supplier of reconditioned cutting tools to major aerospace companies in the U.S., Mexico and Canada. At our Manufacturing Center in Missouri, we employ over 400 tool-reconditioning professionals who process over 500,000 dull cutting tools each week.

US Tool reconditions HSS, cobalt and carbide cutting tools, utilizing Walter, ANCA and other CNC equipment, as well as customized grinding machines designed and built or modified by **US Tool**.

Over 90% of the cutting tools **US Tool** reconditions are considered specials as they are built to a customer print. **US Tool** maintains an impressive intranet print management system, assuring that **US Tool** complies with our customers specific tool reconditioning requirements.

US Tool's reconditioned cutting tools are guaranteed to perform as good as or better than new tools.

AUTOCRIB AUTOMATED DISPENSING SYSTEMS

US Tool is a perennial "Premier" Distributor of AutoCrib tool crib management software and industrial vending systems and is the largest AutoCrib solutions provider in the industrial market.

AutoCrib offers a variety of dispensing machines and lockers in different configurations to meet a wide range of customer requirements. In addition to the operation of tool dispensing machines, the AutoCrib tool crib management software performs as a stand-alone, full-featured program to manage the traditional tool crib in a cost effective environment.

US Tool supports the AutoCrib software and industrial vending systems with our own staff of highly trained software programmers and hardware support personnel, resulting in our unique ability to provide a complete turnkey installation and maintenance solution for AutoCrib systems.

VALUE ADDED SERVICES

US Tool provides other in-house services including:

- Special Cutting Tool Manufacturing
- Foam Cutting/Laser Etching
- Kitting/FOD Control Toolboxes
- Temporary Aircraft Fastener (Cleco) Reconditioning
- Custom Machined Parts
- Power Tool Repair
- Cutting Tool Inspection

OUR MISSION:
To be the most **TRUSTED** provider of **Cutting Tool Services** and **Manufacturing Supplies** in the **INDUSTRY**.
